VDA 6.8 – Process Auditor – Examination

The examination leading to a certificate allows you to have your qualification independently confirmed so that you can meet the requirements of customers or suppliers regarding auditor competence.

Your certificate will indicate that as a VDA 6.8 Auditor you are able and authorized to independently conduct process audits both internally and on the premises of your suppliers.

1. Prerequisites for Attendance:

- a) a copy of your certificate of qualification of the training “VDA 6.8 – Process Auditor – Qualification” or “VDA 6.8 for VDA 6.3 Process Auditors”.
- b) proof of completion of a three-day auditor qualification course based on DIN EN ISO 19011 (e.g. VDA Auditor).
- c) proof of at least five years of professional experience in an industrial company, of which at least two years should be in logistics-related areas of activity (see chapter 3.2, preferably same as process elements L1-L7). In-company training periods in conjunction with a completed dual education, e.g. as a warehouse logistics specialist and/or advanced training, e.g. Certified Logistics Manager are credited at 50%. A degree in Logistics/Supply Chain is credited at 25%.

Admission to the exam is only granted after successful review of the application.

2. Examination:

The examination takes place in the form of an audit simulation. The assessment is focused on the performance as an auditor during the simulation. Audit preparation, auditor behavior during the simulation, and debriefing follow-up are evaluated.

The examination consists of:

- a) a preparation phase (25 minutes)
- b) an audit simulation (20 minutes)
- c) a formulation, evaluation and justification of findings (5-10 minutes)
- d) an interview (5-10 minutes)

For preparation, you may use the written training materials handed out (incl. standards) during VDA trainings you have attended, which you must bring to the examination yourself.

3. Certificate:

After passing the examination you will receive a certificate with a registered number. The certificate is valid for 5 years.

4. Duration:

1 Day.
